

PROJECT 2: THE HUB

Taylor Walters

5/6/2024

IA 404

CONCEPT STATEMENT

Inspired by the “come and go” fashion of modern airports, this flexible workspace will serve as a tool for companies to allow their employees to enjoy a comfortable, dynamic space to help foster communication and teamwork in the workplace. Users of this space can enjoy casual lounge seating in the lower level with a café, or move upstairs to work collaboratively in the open, “touchdown”-style work area. Bring in the whole team to one of the two conference rooms, located on each floor. Private offices are also available to anyone who might need their own space as well.
